

Virtual Educational Excursion – RAIL MUSEUM

Virtual excursions provide the perfect opportunity to broaden students' mind and bring the world's greatest sight right into our online classroom.

The students of pre-school were taken on virtual educational excursion to Rail museum. Children were ready with their ID cards, caps and shades and picnic bag. They were carrying their snacks to munch during their virtual train ride.

Videos of rhymes like people in the train, red light, chai chai coffee coffee etc. were played for the students. Learning by virtually experiencing has been highly successful for the little ones.
