

## International Paper Bag Day

*"Necessity is the mother of invention"*

The Little creators of Pre-School celebrated 'International Paper Bag Day' on 12th July 2020. The main aim was to spread awareness about using recycled paper bags as they are natural, biodegradable and reusable. Children were also told that use of recycled paper bags reduces plastic waste.

They were encouraged to use recycled paper bags to prevent the mother earth and to protect it from environmental damages. Children shared the pictures and videos of the paper bags made by them during the lockdown period.
